From the Eminent Physician, Dr. Gordon, of Boston.

"While in Germany last year, I suffered at one time greatly from the disease which has so many years been my misery. A worthy German surgeon advised me to use HOFF'S MALT EXTRACT, and I am able to testify that I was greatly benefited by it. I have recommended it to many persons in my travels suffering from Dyspepsia, and always with benefit to them."
Paris, June, 1868. MWF

[illegible] delegation went up to the White House on the same subject, to present the claims of others but found they were a day too late.

Assessor Third Ohio District.

It is asserted to-night among the friends of Gen. Maxwell, Assessor of the Third Ohio District, that he is to be removed and George B. Johnson, of Lebanon, nominated.

The Indiana Appointments.

The Indiana delegation in the House had a meeting and agreed that the Senators should control the patronage in the Democratic districts, and United States patronage for the State; that Representatives should control their own districts, and that the Postoffices of large towns should go with the district in which they were situated. However, the President has fixed Indianapolis, by giving it to Mr. Fishback, notwithstanding the two senators were for Mr. Holloway.

Pension Agent at Columbus, Ohio.

Dwyer, Pension Agent, at Columbus, Ohio, is to give place to School Commissioner Norris, appointed yesterday.

The Attorney Generalship.

The supposition that Attorney General Hoar's appointment to the Cabinet was intended to be of a temporary character is not warranted by anything the President has said or done, before or since it was made. Many of the politicians are troubled by the fact that one State has two members of the Cabinet, and some of the friends with whom the President consulted about the appointment thought he might be embarrassed by the choice of Hoar, and desire to choose Boutwell. He, himself, said at the time that this difficulty of giving two places to one State was among the least of difficulties he had to encounter, and that Hoar should retire to make room for Boutwell was not of his suggestion. When Hoar first talked with the President after arriving here, and said he had no wish but to serve the country, and would do whatever the President desired him to do, he was answered that the President had no desire except that he should qualify and at once enter upon the active duties of office. Mr. Hoar did this, and he is now learning his new work. There is the best reason for saying the President has no intention at present of superseding him. The question of locality, he says, is of far less consequence than fitness, and Mr. Hoar is already proving himself a fit man for the place given him. His footing in the Cabinet is now as sure as any other member, and people, therefore, need not worry themselves to find a new office for him or pick out a new one for the Attorney Generalship.

General Army Order.

A general order making further assignments of prominent army officers is nearly completed at the War Department. Gen. Thomas goes to the Division of the Pacific, headquarters at San Francisco; Gen. Sheridan to the Division of the Mississippi, headquarters probably at St. Louis; Gen. Schofield to the Department of Missouri, headquarters at Fort Leavenworth. Gen. Halleck is to be ordered east to the Division of the South, not yet organized. General Augur still remains in command of the Department of the Platte; General Hancock, Department of Dakota; General Pope, Department of the Lakes; General Terry, in Georgia and Carolinas. General Stoneman goes to Arizona. [illegible]

CURRENCY OPERATION.

Fractional currency printed during the week, $29,500; shipments $32,500. National Bank notes issued, $145,000; actual circulation, $299,-903,323. Fractional currency destroyed, $759,840.

COLLECTOR AT NEW YORK.

It is reported that John D. Clifford, of Massachusetts, is to be appointed Collector of the port of New York.

SOUTHERN RAILROADS.

Thorough investigation is about being ordered into the accounts between the Government and Southern railroads in the matter of selling stock and material turned over to them since the close of the war.

WANTS AN OFFICE.

Mr. Butler to-day introduced to Secretary Boutwell a colored man from New Orleans named Joubert, and recommended him for appointment as Assessor of Internal Revenue in that city. Joubert said he did not desire the office from pecuniary considerations, but merely to test the disposition of the party in power as to the rights of his race.

THE PENNSYLVANIA PROGRAMME.

There is a great deal of opposition to that part of the programme of the Republicans in Congress from Pennsylvania which gives to the Senators the distribution of the offices of the districts represented by Democrats. It is alleged that it will completely ignore the active men in those districts, and especially the Republican candidates for Congress, unless Senator Scott, who is anxious to do right, should resolve to consult those candidates. It is contended that the Republican members elect are not entitled to any more consideration in their districts than the unsuccessful Republicans who ran as candidates in hopeless districts like those of Berks, York, Northampton, Lehigh, Clearfield, Luzerne, etc.

INTERVIEW WITH THE PRESIDENT.

Colonel A. K. McClure, of Pennsylvania, had a very cordial interview with the President at the White House this morning, which shows that the relations between the two gentlemen are friendly, and that Colonel McC. lost nothing by his candid talk before the inauguration on the subject of a Cabinet minister from Pennsylvania.

ATTORNEY GENERAL HOAR.

The statement about a Massachusetts delegation waiting on Judge Hoar to request him to resign and to leave Massachusetts to be represented in the Cabinet by Boutwell, so as to avoid an outburst of jealous feeling from the politicians of other States, is not correct. No delegation has waited on the Judge, and he intends to hold the office to the official end of his term; at least so his intimate friends declare.

LONGSTREET.

The nomination of General Longstreet to be surveyor of Customs at New Orleans is the subject of considerable comment. Those familiar with the course of the General since the end of the war applaud the appointment, and think it will do a good deal of good in the South in helping to restore peace and order. There is talk of his rejection by the Senate, founded on some hasty remarks of a Southern Senator, but he is sure of confirmation. [illegible]

SECRETARY FISH'S STATUS IN THE REPUBLICAN PARTY.

Both of the New York Republican factions are claiming a victory in Fish's appointment. The Woodlites declare Fish is the very man they wanted, while the Fentonites assert that he was their own special choice and recommendation. [illegible]

BY THE ATLANTIC CABLE.

The Ocean Mail Service—Increase in Spanish Army—Military Conscriptions to be Continued—Another Revolutionary Movement in Andalusia, &c., &c.

Ocean Mail Service.

LONDON, March 13.—In the House of Commons last evening, Mr. Seeley moved for the appointment of a committee on the mail contracts to the United States. The Marquis of Hastings, Postmaster General, said the contract was completed by the late government, and to break it would be a breach of faith. He added that the present service was satisfactory. Mr. Lowe deprecated and Mr. Hunt supported the contract. The House divided, and the motion was adopted by the following vote: for a Committe, 115; against, 86.

A Liberal Elected.

LONDON, March 13.—Mr. Miall, Liberal, has been elected a member of the House of Commons from Bradford, in place of Mr. Ripley.

Increase in Spanish Army.

MADRID, March 14.—In the Constituent Cortes last week, Minister Sagosta asked for power to raise twenty-five thousand recruits, which he said were necessary to complete the army. After a long debate the majority of the Cortes voted in favor of granting the power to the Ministry, but resolutions were passed declaring that in future military conscriptions should be discontinued. A demonstration was made to-day by the people of this city against conscription.

Another Insurrectionary Attempt

Is reported in Andalusia. No particulars of the affair have been received.

Havre Cotton Market.

HAVRE, March 13.—Cotton firm for both on spot and to arrive; 141 francs on spot.

HAVANA.

Insurgent Headquarters at Mayaroi—Emancipation of Slaves—An Iron-clad for the Rebels—Americans Refused Permission to Leave the Island—Outrages Committed by the Spanish Troops—Riot at Havana, &c., &c.

HAVANA, March 11, via KEY WEST, 13.—The insurgent leaders propose concentrating their forces and establishing the seat of government at Mayaroi or some town in the jurisdiction of Santiago. Aid is soon expected from Yucatan and other places.

Advices from Nuevitas to the 9th inst. have been received. The insurgent representatives in the Assembly of the central department have decreed the absolute abolition of slavery, but all patriots are, however, to be indemnified for the losses of their slaves. The freedmen may become soldiers or remain in the country and cultivate the land.

An iron clad, with Armstrong guns on board for the insurgents, has been sighted off Green Key, and Spanish cruisers were sent in search of her.

The Governor has refused to permit Cubans or Americans to leave the country.

The troops have committed many outrages on the plantations in the neighborhood of Nuevitas.

HAVANA, March 13.—The Voz de Cuba newspaper publishes the following: A second expedition will soon be sent to Fernando Po with prisoners.

There was a riot to-day in Figuras street. Several of the participants were arrested and sentenced to death; another to carry a ball and chain for life.

The Diario argues against the confiscation of the property of rebels.

The insurgents under a Polish general have burnt the bridge and torn up the rails between San Marias and Lagua.

HAVANA, March 13.—Official dispatches report that a battle has taken place at Mayori, the headquarters of the rebel forces in the eastern department. The government account states that a column of 500 regular troops, supported by a heavy artillery fire, carried the fortifications of Mayori, and captured the town, which was defended by 2,000 insurgents. No rebel version of the affair has yet come to hand.

Four and a half miles of track on the Central Pacific Railroad were laid on the 13th of February. It was anticipated that fifty miles were to be laid the next day.

The first meeting of the new Cincinnati Board of Trade for manufacturers exclusively was held Saturday night. Seventy-three firms and twenty-seven individuals, making one hundred members, have joined.

An English bark supposed to be the John Bright, laden with lumber from Port Townsend for a South American port, was wrecked in Natka Sound, on the 9th of February. The vessel is a total loss and all on board are supposed to have been lost. The disaster occurred near an Indian village the residents of which assert that none escaped, and no bodies came ashore. It was afterwards ascertained that two bodies had been washed ashore and stripped by the Indians. Several articles were recovered and brought to Victoria.

CITY MATTERS.

THE GRABOSKI-HARKOWITZ TROUBLE AGAIN.—Some time ago mention was made of the commitment to jail of Samuel Harkowitz on a variety of charges, preferred by Eliza Graboski, who formly kept the Tremont House, in the Diamond. It seems that the defendant, by some legal technicality, managed to get out of jail, and the prosecutrix, in order to get him back again, made another information against him before Alderman McMasters, Saturday, charging Harkowitz with the larceny of two trunks containing a quantity of clothing, valued at $500, and about $1,000 in money. Warrants issued.

A TRIANGULAR SUIT.—M. C. Burke, John Newell and Polk Harkins, it is stated became involved in a difficulty in Murray's saloon, in Market alley, Saturday evening, and kept up the quarrel after they had left the saloon. The result was a charge of disorderly conduct against Burke and Harkins, which was preferred by the proprietor of the saloon, and a suit for assault and battery preferred by Mr. Burke vs. John Newell. A hearing will be had before the Mayor this morning.

STONING THE ORPHAN ASYLUM.—A warrant was issued by Alderman McMasters, on Saturday, for the arrest of Wm. Reisenmyer, charged on oath of Wm. Kane with throwing a stone through one of the windows of the St. Paul's Orphan Asylum on Tannehill street. It is stated that the missile came near striking one of the sisters. Some time ago this defendant was arrested for attempting to set fire to the building, but he was then discharged on the plea of insanity.

DIFFICULTY IN A SALOON.—David Jones and a number of boon companions, it is alleged, went into the saloon of Mr. Voltz, on Penn street, in the Ninth ward, at a late hour on Saturday evening and raised a fight, in the course of which a number of bottles and glasses were smashed. The proprietor states that when he endeavored to quell the disturbance they pitched into him and beat and abused him. Jones was arrested yesterday afternoon and locked up for a hearing.

VELOCIPEDE ACCIDENT.—Wm. Granson, of Allegheny, was riding a velocipede down North avenue, Allegheny, Saturday evening, when, owing to the down grade, the vehicle commenced running so rapidly as to be unmanageable, and struck a fire-plug, breaking the leg of the rider. The injured man was taken to his home on the avenue and the broken limb set by a physician. This is the first serious velocipede accident that has occurred in this vicinity.

WANDERING JUVENILES.—About one o'clock yesterday afternoon two little boys, apparently about three years of age, were found by two young men wandering about the street in the vicinity of the Grain Elevator, who took them to the office of the watch-house where they remained until four o'clock, when the father of one of them came and took them home. Their parents reside on Ohio street, Allegheny, and are neighbors. How they managed to stray so far from home is a mystery.

ASSAULTED WITH A SHOVEL.—B. Lafferty and Richard Pear became involved in a difficulty at Lindsay & McCutcheon's rolling mill, Allegheny, and Lafferty alleges that Pear struck him with a shovel in such a way as to break two of his fingers. The result was a suit against Pear before Alderman McMasters, in which the defendant was required to give bail for a hearing on Tuesday.

FAREWELL SERMON.—Rev. L. F. Morgan, pastor of Christ Church, Penn street, delivered his farewell sermon yesterday, he having received a call from the Baltimore Conference. The discourse, which was an excellent one, had for its text First Thessalonians, V—12: "And we beseech you, brethren, to know them which labor among you, and to esteem them very highly in love for their work's sake."

INTERFERING WITH IMPROVEMENT OF THE COMMONS.—A boy named John Wilson was arrested by officer Greene, of Mayor Drum's police, Saturday, for tramping over the soft dirt of the North Commons, thus interfering with the improvement of the Commons. He was fined five dollars and costs by the Mayor.

At Cincinnati, Saturday night, the 10:45 Toledo train on arriving ran off the track near the depot, owing to an open switch. The locomotive was precipitated down a bank into the track of the Indianapolis and Cincinnati road, but the remainder of the train kept the track. The passengers were unhurt. The engineer and baggage car brakeman were slightly injured. The fireman, Ed. Collins, had his collar bone dislocated. Thos. Ewing, riding on the engine, had his right hand crushed and the left scalded.

DIED.

Daily Commercial.

MONDAY, MARCH 15, 1869.

Our Washington dispatches this morning are not reassuring to the noble army of office-seekers waiting in Washington for their commissions to be made out. The entire Cabinet appear to entertain the same view of things; and while changes wherever necessary doubtless will be made, it is not going to be done in a twinkling.

If Mr. Stewart was in harmony with the views of the President's inaugural, it appears from the speeches of Mr. Boutwell that he is not less so. He is opposed to speedy contraction and in favor of business development; opposed to selling gold by the Treasury and in favor of a funding process for insuring stability and a lower rate of interest. He is for the most scrupulous maintenance of the public honor and in conducting the concerns of the government for requiring rigid accountability of every officer and the undeviating pursuit of the line of duty.

We learn from Harrisburg that the supernumerary officers of the House expect to get pay for doing nothing by the aid of the Democratic members. Nothing more natural. That party generally puts its arms full length into the Treasury whenever it gets a chance, and out of pure sympathy stands ready to help whoever meditates such a purpose. The present opportunity to act on this principle is too good to be lost, and we ask the people of Pennsylvania to mark well Democratic members who vote to consummate the outrage of paying twenty-seven officers whom a month ago the House voted there was no earthly use for.

The new Cabinet is giving the greatest satisfaction to the country. One fact in particular is to be remarked. Every member is a sound and unquestioned Republican; but of the whole seven, not one sought or desired his position. Like the President, each member can say, "the office came to me unsought." The President and Cabinet will work in perfect harmony, and with a sincere determination to place the country on its feet by administering the Government with honesty, faithfulness and economy in every department. With the President and his counsellors agreed in their action we may feel certain that the policy of the administration will in no respect be far wrong.

Almost without exception the nomination of General Longstreet for Surveyor of the port of New Orleans is warmly approved by the Republican press, as a most wise and timely act. It is understood that an attempt will be made by some narrow-minded people to prevent his confirmation, but they are not likely to succeed. As a measure of practical reconstruction, it is worth more than a score of stringent enactments by Congress. General Longstreet quit when Lee surrendered, and had any considerable number of the leaders in the rebellion done as he did, the last four years would have been for the South a period of prosperity and not of desolation.

Mr. Reverdy Johnson occasionally says a good thing. He succeeded in saying what to the English mind must be extremely suggestive, touching *Alabamas* in general, and the fate to which British commerce might, in a certain contingency, be exposed. "To us," he said, "a few millions of dollars is a matter of very little consequence; but to you, who may be involved in a war in spite of yourselves with some of the nations of continental Europe, the principle that a neutral nation can suffer vessels of war to be built within her own limits and given to the aid of a belligerent is a matter of vast importance." Mr. Johnson told his listeners and the English nation that under circumstances similar to those which drove American commerce from the ocean, British commerce would surely disappear. These are the most practicable and forcible arguments that can be addressed to the British judgment and conscience, and there is reason to believe that this view of the Alabama question having found a lodgment there, good results may be expected.

Hamilton and Jefferson were politicians; so were Calhoun and Webster; Henry Clay and John C. Calhoun were politicians; so were, and are, Chas. Sumner and George Francis Train. The man who devotes his time and means to enlightening his less fortunate fellow citizens and qualifying them to exercise wisely, beneficently, the Right of Suffrage, is a politician; so is the persistent self-seeker who spends his [illegible] in [illegible] himself and cronies into places which they never deserved and for which they are [illegible]. The public must learn to draw the proper and necessary distinctions.—*New York Tribune.*

The public do "make the proper and necessary distinctions." Hamilton and his associates were statesmen. To rate them as politicians, in the ordinary sense, would be no more correct than it would be to rate [illegible] and Tracy as statesmen. A junk shop man in a certain sense is a merchant; but it would be hardly right to rank him with the importer and seller of silks. A new word seems necessary to distinguish the politician of the unexceptionable kind from the scurvy sort. There are lawyers and there are shysters; yet they are all lawyers. But when they see them the people "know which is which," and experience quite as little trouble in distinguishing the two kinds of politicians.

TAKING AN OBSERVATION.

It is customary, when a vessel has cleared from port, and officers and crew become familiarized with their duties, to take an observation. As the ship of State has now been sailing ten days under our new commander, the moment is favorable for taking an observation to note the exact direction she is sailing and the progress she has made. In doing this, perhaps the very thing that unreflecting people would be very apt to view as a hindrance or interference, is, in fact, one of our greatest aids. We allude to the change of the ship's officers. In substituting Mr. Boutwell for Mr. Stewart, the President has demonstrated that his choice of cabinet officers, from first to last, was not influenced by any pet theory, but that his aim was to secure efficient, upright and energetic business men, without reference to their views upon those matters upon which there exists a diversity of opinion among Republicans in and out of Congress. Mr. Boutwell is perhaps more positive in his tariff than Mr. Stewart is in his free trade views. Now that this matter is definitely settled, we desire to direct the attention of our readers to the composition of the Cabinet and the manner in which it was formed. Perhaps the most remarkable thing about it is the fact that *not a single member of the Cabinet sought his position.* As it stands, the Cabinet simply reflects the President's judgment. No clique, no ring or influence whatever controlled him in a single instance. Even in making the change in the Treasury Department, he simply went back to his first choice. The next noticeable circumstance is the fact that every member of the Cabinet is thoroughly identified with the Republican party. The President has demonstrated that it is possible to preserve his independence, and to please the party at the same time. But observe the great gain insured by the exercise of his independence. In the first place, the Cabinet are not hampered by obligations to the advocates of a particular policy in the administration of the business of their several departments. Such questions are left where they properly belong, to the decision of Congress. The affairs in the various departments will be conducted in a business manner. The President's great aim is to *enforce the laws*, leaving the making of the laws with Congress. There is not a single member of the Cabinet whose character will not stand the severest scrutiny. They all carry into their office great practical experience and iron-clad integrity. No amount of chicanery, no combination, no ring or clique, however powerful, can penetrate the armor of the new Cabinet. In a word, the laws will be inflexibly enforced in their very letter and spirit.

The earth-practice in cases of wounds and sores is making great headway. W. L. [illegible], M. D., New York, writes: "I have many times treated purulent contagious ophthalmia with dressings or poultices made only of wet clay dug from cold springs. By treating it on the eyes at night in as large quantity as a pint, it often acts like a charm. Its first effects are to reduce the inflammation, but it soon becomes dry and hard, and then absorbs, like dry earth, any poisonous matter that is secreted by the inflamed parts, preventing it from doing further injury. This remedy was suggested to me years ago by an old man who never knew anything about the regular practice of medicine, and I have seen it work so well that I believe it to be worth considering."

GENERAL AND PARTICULAR.

In the splendid aqueduct, now in course of construction in France, to bring water from the forest of Fontainebleau to Paris, some of the finest arches by which the work is supported in crossing valleys are composed of a mixture of sand and cement exclusively, no stone or brick being used. This would seem to prove that the French have a process which they have found effectual, and that there is no inherent difficulty in making an artificial stone which will answer all practical purposes.

The Cox family muster strong in the Department of the Interior. The new Secretary is Jacob D. Cox; the Chief Clerk is John C.; the Commissioner of Pensions, Christopher C.; while Ezekiel T. brings up the rear as a clerk in the Patent Office. None of those gentlemen are related to each other, and they originally came from different parts of the country.

The Brooklyn *Union* says that "[illegible] Johnson, the noted Brooklyn skater, returned from Paris last week, and he informs us that not only have we better velocipedes here than they have in Paris, and greater facilities for practice under cover, but that the most expert riders now in Paris are Americans. He says that the Parisians would be astonished to see the beautiful machines our Broadway makers turn out."

One worthy New York priest—a pillar of old Trinity itself—whose intonations of the choral service are such as resound through English Cathedrals, having been in receipt of only $7,500 a year, made several unsuccessful applications to have the sum increased. The vestry took little if any notice of his humble applications until a short time ago, when they raised his salary to $10,000 a year. In addition to this, he receives $2,750 per annum as a Professor in the Theological Seminary.

The results of an analysis of a new hair lotion described by its vender as "perfectly innocuous," shows that this precious mixture is composed of rose-water, sulphur and sugar of lead, the latter in sufficient quantity to cause paralysis, or painter's colic. The directions were that a "dessert spoonful should be daily brushed into the roots of the hair, until the whole head was moistened."

A staff officer of the French army in Algiers has discovered two subterranean tombs, probably dating from the period when the Romans settled in Numidia. They evidently belonged to the natives of the country, and the architecture is not wanting in elegance and grandeur. Similar to the Roman burying places, they contain funeral urns deposited in niches. A skull was found in one which tends to prove the fact that the Numidians decapitated their dead, burying their head and burning the rest of the body.

Gen. Badeau's Military History of U. S. Grant is being translated into the French, German, and Spanish languages. Senor Romero is making the Spanish translation; two distinguished gentlemen, one a professor at Berlin, and the other at Heidelberg, are preparing the German translation, and an eminent French scholar the French translation.

There was a strange and startling exhibition at Laconia, New Hampshire, a few Sundays ago. As the people were assembling for worship, a well-dressed stranger coolly ascended some ladders which still remained upon the new Unitarian Church, mounted to the very top of the steeple, surveyed for a few moments the landscape and those who were watching him in terrified groups, performed a gymnastic feat, gazed about a few moments more, descended to the ground, and walked out of town without uttering a word or manifesting any emotion. He is thought to have been an escaped lunatic.

A correspondent of the *Boston Journal of Chemistry* says that water-spouts and sink-spouts frozen up may be speedily thawed out in the following manner: Procure a piece of lead pipe of suitable length and size; place one end against the ice to be thawed, then, through a funnel in the upper end, pour boiling water. Keep the pipe constantly against the ice, and you can penetrate one foot or more per minute.

An addition will shortly be made to the fleet of American merchant steamers now running on the rivers of China, two steamers intended for inland navigation in that country having left New York for Shanghai, proceeding thither by way of the Cape de Verde Islands and the Cape of Good Hope.

The Board of Engineers having accepted Mr. Roebling's plan for the great bridge between New York and Brooklyn, the work will be prosecuted without unnecessary delay.

The *Tribune* favors the appointment of Frederick Douglass as Minister of the United States to Hayti. It says nothing against any other whose name may be mentioned, but insists on the very best man, and speaks the common judgment of the country in declaring Douglass to be that man.

It is reported that four steamers loaded with all kinds of war supplies have landed their cargoes upon the northeast side of Cuba, not far distant from the principal insurgent headquarters. This will give the revolutionists a good start and enable them to advance westward and fight a battle for the possession of Puerto Principe.

It now appears that it is about as difficult for a rich man to enter the Cabinet as it is to enter the kingdom of Heaven. If you don't believe it, ask Mr. Stewart.

The *Continental Gazette*, which has been published in Paris, France, as a weekly, for more than a year, in the English language, under the excellent management of Mr. Charles S. McClennen, has met with such success that, after the first of May, it is to be published as a daily.

Hon. Onslow Stearns, President of the Old Colony and Newport Railroad, who has just been elected Governor of New Hampshire, is one of the most successful railroad managers in the United States, and will doubtless discharge the duties of his new position to the satisfaction of all.

The New Secretary's Views.

We printed a few days since an extract from Mr. Boutwell's speech at the State Convention last fall, indicating his views on financial questions. His remarks at the District Convention, upon accepting his nomination for Congress, were even more explicit, and will be read with interest, as closely in accord with the views set forth in the President's inaugural:

"The Republican party, Mr. Boutwell said, were substantially unanimous in favor of paying the bonds in coin; and if they could not pay the bonds now, they were determined to make the greenbacks as good as coin; and when that result was accomplished, the question whether the bonds should be paid in coin or specie would lose its importance. The first duty, therefore, was to make the greenbacks as good as coin. As far as he had any voice in the direction of public affairs, he intended to act in that direction. As to the payment of the bonds, he would not consent to equivocation, shuffling, or shaving of any sort. He should consider it the greatest of national calamities not to fulfill the contract in its exact spirit."

A man died in New York last week whose heart and liver had changed places—at least the heart was where the liver should have been and *vice versa*. He was "a well known citizen," and took a deep interest in the sanitary and other affairs of the city. He was a genius, in short, and besides his love for the fine arts, he had invented an organ of vast proportions, which will play unaided the whole music of several operas. His body found its way into the dissecting room, where the surgeons found something wholly new. When the sternum was divided, the amazing discovery was made that the heart and the liver had changed places, the heart being on the right side and the liver on the left. This change in the two great vital organs changed also the position of the other organs, and caused an extension of some of the vital ducts. Nature had created order out of the disorder, so that there need be no serious interruption to the vital functions.

It appears that Mr. Stewart, and not Mr. Boutwell, was President Grant's original choice for Secretary of the Treasury. Mr. Boutwell was offered the Interior, which he declined for the reason, it is said, because the President would not consent to the radical changes in the *personnel* as well as the policy of the Department proposed by Mr. Boutwell. The correspondent of the New York *Times*, who states these things, says: "The Treasury Department was not offered even to Mr. Wilson, of Iowa, though his choice of three others, including that now held by Mr. Washburne, was offered him. I do not know, now that Mr. Boutwell goes in, that it is on the conditions which he announced as precedent to his acceptance of the Interior—the permission to make radical changes in the Department *personnel*. The protectionists claim Mr. Boutwell as one of their number, but he does not appear to be radically so. He strongly opposed the repeal of the law of [illegible] for other than commercial reasons."

A "Western Farmer" repeats what most of farmers know to their cost, namely: that nine tenths of the Agricultural Implements are shabbily made and outrageous swindles. He avers what is a very common fact, that it seldom happens that a reaper can be set up and put in operation without considerable being done with files, augers and chisels. While it is necessary that the greatest skill should be exercised in constructing this class of machinery, which is subjected to constant jerks and strains of different parts, by its movements over uneven ground, and being in all sorts of positions, the mechanical workmanship is fully developed only in other classes of machinery that set firmly on their feet or slide on easy springs. The prices that farmers have to pay for their machinery would warrant a better class of work.

A Kentucky paper relates a terrible accident in the following brief manner: "A mother and her child were accidentally ground up in Bogg's Sugar Cane Mill last week." It is unnecessary to add that the sympathies of the journal which records this levity are never operated upon by a black skin. But what of the sugar "ground up" at the same time?

The Democrats in the Ohio Legislature have a scheme for redistricting the State, so as to wipe out the Republicans so far as possible, and give the opposition at least eleven of the nineteen Congressmen.

It begins to be comprehended that the President means thorough work with the Pacific Railroad. His recent appointments of Commissioners and Directors leave nothing for influence. The new Director is General J. D. Webster, of Illinois, a native of New Hampshire, and for many years in the Engineer Corps of the army. Several years since, he resigned his commission, but returned to service at the outset of the war. As Grant's chief of artillery at Shiloh, he saved that day, and as Sherman's [illegible] in Tennessee, during the "march to the sea," General Webster had a position of great responsibility and care. He is a thorough going Republican, and his efforts in behalf of "Free Kansas," in the desperate days of the Pierce dynasty, are gratefully remembered by the people of that State. Gen. Webster's engineering knowledge, and his high personal character and integrity, will be of service in the Pacific Railroad direction.

KANAWHA LANDS AND MINERALS.

Inducements for Emigration to West Virginia—Coal and Agricultural Lands of Choice Character.

To the Editor of the Pittsburgh Commercial:

I noticed in the New York *Tribune*, of February 2d, a brief article calling the attention of emigrants and coal men to West Virginia. Mr. Greeley is constantly urging the superabundant population of Eastern cities, towns and rural districts to emigrate to the West, and thousands now thank him for his advice, which took them to new homes, where they have quickly obtained not only a competence, but many of them wealth. He has directed attention mainly to the fertile lands of Iowa, Missouri, Kansas and other of the Western States and Territories. The article referred to above, sets forth strongly some of the advantages of West Virginia.

I have often wondered that more attention has not been directed to this new and inviting State. Its location in the very center of the Union and of population, makes it peculiarly attractive to those, especially, who are averse to pioneer life. A large portion of the lands are rich and productive. The bottom lands on the rivers and creeks are unsurpassed in fertility, while the table lands, much of which are covered with valuable timber, are also very fertile, and adapted to the production of most kinds of grain and fruits of every kind, while large portions are peculiarly suited to grape growing and sheep and stock raising.

I have recently been through much of the State, and I found the large non-resident land owners were dividing their lands and offering them for sale in farms to suit purchasers, and I was surprised to find that on many of these farms there were cabins, more or less comfortable, and land cleared and in cultivation, varying in quantity from a few acres up to twenty, fifty, or even more acres, thus furnishing purchasers a home at once.

But to me the greatest and most attractive feature of the country is its vast *mineral resources, especially in coal and iron.* The coal is of the very best quality, large deposits of it being *cannel*, and the veins of unusual thickness, varying from *three* to *fourteen feet*, and most of it near navigable streams. The Great Kanawha is navigable for steamers all the year, for a distance of some *eighty* miles from its junction with the Ohio at Point Pleasant, and I learned that coal can be taken down this river and forwarded to Cincinnati and other markets, when the Ohio will not permit shipping from Pittsburgh. Why enterprising men, even with moderate capital, do not embark in the coal business on this river is surprising, and can be accounted for only from the fact that they have never examined the advantages here held out. Coal lands on the Great Kanawha and its tributaries, equal in quality to any near Pittsburgh, can be bought for *one-quarter*, and I understand in many cases for even *one-tenth* the sum asked for Pittsburgh coal lands, while the great markets are some *two hundred* miles nearer, and the navigation much more reliable.

The Chesapeake and Ohio Railroad, which is a continuation of the Virginia Central Railroad, beginning at tide water below Richmond and terminating at the mouth of the Big Sandy, a distance of four hundred and twenty miles, and crossing the whole of West Virginia, will soon be completed. This being the nearest and the best route as to grades and curvatures, from all the great centers of trade in the west, must be *the great thoroughfare of the country*, and will add vastly to the wealth of the new State. The most acceptable and valuable coal lands, and the largest and most desirable body of farming lands which I saw in my travels through the State were in Putnam county, some thirty or forty miles from the Ohio, and on the great Kanawha. Here I learned that some four or five thousand acres of superior coal land and some seventy-five thousand acres of farming lands had been carefully surveyed, divided and mapped in parcels and farms of convenient size. I noticed a few days since an item in the Pittsburgh *Dispatch* that there would be a large emigration this spring from Pittsburgh to Virginia, Kentucky and Georgia. If emigrants and coal men will take my advice they will visit the great Kanawha Valley before deciding as to their ultimate destination, and if they do they will probably look no further.

A Genuine Water Nymph.

We sometimes think that Pittsburgh water contains more hidden wonders than any known fluid, not excepting the waters of the Dead Sea, or cod liver oil. But it seems that the waters of Minnesota produce still greater curiosities. A St. Paul paper relates a story which illustrates the peculiar character of the water sometimes found in the wells in that city. A citizen of St. Paul who went to his well one morning, upon drawing up the bucket found it incredibly heavy—ten times as heavy as usual. He was surprised at this, but determining to see what was the cause, tugged away at the windlass. Being blessed with stout muscle he slowly wound up the rope. As the bucket reached the top he was surprised to see the hand of a human being clinging to the rope. He almost let go his hold in his surprise, but was able to continue the hauling up process. Soon another hand appeared—then the head of a woman with her long dishevelled hair dripping with water, and her garments saturated with cold fluid.

The woman had to be thawed out, of course, before she could explain the mystery. The contemplated suicide jumped into the well head foremost, and after staying in the well all night she concluded she would get out the first opportunity that offered. Pittsburghers should be thankful at least that they are prevented from experiences of this nature by the intervention of hydrants, else it is hard to tell what might happen. And, yet we don't know but the introduction of water nymphs would improve our water vastly.

Colonel Rose's Ku-Klux Remedy.

Lieut. Col. T. E. Rose, formerly of Pittsburgh, now of the regular army, and at present stationed at Marion, Tenn., has been investigating affairs in *Lee county*, Va., where the Ku-Klux are in the habit of disturbing the public peace. The Colonel proposes to Gen. Stoneman the following remedy: In the event that the magistrates and sheriffs fail to do their duty, I would respectfully request that I be allowed, in the course of a few days to take a squad of men and go to a point on the railroad that I shall select, and there mount my entire squad and proceed to Turkey Cove, which is about sixty miles from any railroad, and hunt those desperadoes down. It would be perfectly useless to send troops into that country after these scoundrels, unless it would be to station them up there, and that, at this season of the year, is impracticable. I have little faith in the sheriffs and magistrates doing their duty, or that they will be much assisted by the citizens, because they all seem to me to be a set of poltroons—Ku-Kluxes and all; yet in this I might be mistaken, and if they follow my instructions there will be no need of sending any troops into that place.

An Excellent Fertilizer.

We advise our readers, those who have farms and gardens to cultivate, to prepare as large a quantity of the fertilizer we suggested and recommended in the April No., Vol. II., of the *Journal*, as they possibly can. It embraces in its composition quite every element required in the growth and maturation of roots and the cereal grains; and it has the advantages of being comparatively cheap and easily prepared. No fertilizer we have yet devised—and we have prepared and experimented with a large number—affords more certain and satisfactory results than this one; and those who prepared and used it last season are extravagant in their praises of it. It supplies a most desirable dressing for fruit trees and vines. We use no other fertilizer for our grapes; and if any of our friends have had better results in their cultivation than we have, it will afford us pleasure to publish their successes. The method of preparing the fertilizer is as follows:

Take one barrel of pure finely ground bone, and mix with it a barrel of good wood ashes; during the mixing, add gradually about three pailfuls of water. The heap may be made upon the floor of an outbuilding or upon the barn floor; and, by the use of a hoe, the bone and ashes must be thoroughly blended together. The water added is just sufficient to liberate the caustic alkalies, potash, and soda; these react upon the gelatine of the bone, dissolving the little stones, forming a kind of a soap, and fitting it for plant aliment. It must be used in small quantities, or in about the same way as the so-called superphosphates. A barrel of this mixture is worth two of any of the commercial fertilizers, and the cost will be but about half as much. It remains to be added, if the bone meal and ashes are very dry, four pailfuls of water may be required, but care must be exercised not to have it inconveniently moist. It will be ready for use in a week after it is made. *Pure, raw, finely-ground bone* and the best of ashes should be employed.—*Boston Journal of Chemistry.*

A sumptuous reception was given to the Prince and Princess of Wales on their arrival at Cairo. They were met by the Viceroy in a brilliant uniform, blazing with diamonds, and conducted to a reception room in the railway station. A handsome open carriage, drawn by two pair of fine English greys, ridden by postilions in faultless tops and leathers and jackets, was drawn up at the steps, and the Prince of Wales, stepping in, took his seat with his back to the horses. The Princess of Wales followed. Then came the Viceroy, who insisted on the Prince changing his place, and sitting beside the Princess. His Royal Highness yielded a little; but who can disobey a Viceroy in his own land? and so the carriage drove off with the Prince and his wife facing the Pacha. The newly-built palace where the royal visitors are domiciled is a mass of enormous chandeliers, of gigantic mirrors, and of the richest furniture, the cost of which, measured on the European's scale of dealing with the Viceroy's purse, must be enormous. The bedsteads of the Prince and Princess—great four-posters—are posts and all of silver, and silver and gold are beaten and spread out all over the furniture and the walls. In the evening the party witnessed "La Belle Helene" at the theater. They take their departure on Monday next.

In a recent sermon Mr. Beecher pitied the devil after the following fashion: "I am informed that, before the commutation system was abandoned by the ferry company, men of property and good standing in society would boldly declare that they had a commutation ticket in their pocket when they had none, for the sake of going through without paying! They did this when the ferryage was one cent! I pity the devil! I do not know what he does with such men! It is awful to be chief magistrate for a parcel of men like these! I cannot understand how these [illegible] men can be managed!"

Sheep multiply so prodigiously in Australia, that the boiling down of the animals merely for the extraction of the tallow has grown into a business of huge proportions. Four hundred sheep are cut to pieces and thrown into a big boiler, steam from another boiler is turned on, and soon the carcasses are reduced to a pulp; the tallow rises to the top, and is drawn off through large taps into barrels for export. The gravy and other juices, the remains of the meat, and the bones, which are so softened as to crumble easily in the hands, are given to pigs. Four thousand sheep are boiled down in a day.

The Hwangho, one of the largest rivers in China, has recently changed, or is changing its outlet, and now enters the sea at a point five hundred miles north of its recent mouth. The Rev. Dr. Martin, one of the Professors in the new University at Pekin, recently walked dry foot over the spot where Lord Amherst's junks lay, while the natives [illegible]. There appears to be reason to believe that in this deviation the river is only returning to a bed on the north side of the highlands of Shantung, through which it formerly flowed, and according to Chinese records, it has repeatedly shifted its channel, sometimes divided by a delta, sometimes entering the sea at a single mouth.

The Wisconsin Assembly has passed a resolution to "promote good morals by prohibiting the chewing of tobacco in the Assembly Chamber."

PERILS AND SUFFERINGS OF THE SEA.

Sufferings of the Crew and Passengers of an Emigrant Ship.

The perils of the sea does not seem to be confined solely to the sufferings entailed by storms and shipwreck. We have listened to tales of the brutality and cruelty practiced by sailing masters, mates and common sailors upon the emigrants that come to our shores, that made our blood chill. Now and then the public are startled by the publication of an aggravated case, as in the affair of the horrors experienced by the passengers of the ship James Foster, which left Liverpool on the 19th of December and arrived in New York on the 8th instant. One hundred and seventy-six passengers were huddled together in a single compartment, in what was originally designed for the hold. The most unsavory aroma pervaded the place. There was a total absence of light and no system for ventilation. The sufferings induced by this condition of affairs led the poor people confined in this floating coffin to consult as to their chances of ever seeing land. The consultation was held a month after the vessel was out. The majority of the passengers presented a sickly and languid appearance. Ship fever attacked nearly all of them. Thirty died of it. The successive burials caused the greatest despondency among the survivors. In addition to this horrible state of affairs, frightful tales of cruelties practiced on the seamen of the ship by the captain and other officers are told by the sufferers. Some accounts make it out that not less than four of the sailors were beaten, kicked and otherwise abused, until their debilitated frames gave way under their tortures. The arrest of the boatswain and carpenter of the vessel by the Staten Island Police, on complaint of the seamen, is reported.

Complaints were made to the officers of the Board of Health of the inhuman treatment of several of the passengers by the ship's carpenter and the third mate. Several other serious complaints were tendered, and an investigation is to be had by the Commissioners of Emigration on the arrival of those passengers at present on board.

REJECTED.

"Perhaps she's dancing somewhere now!"
The thoughts of light and music wake
Sharp jealousies, that grow and grow
Till silence and the darkness ache.

He sees her step, so proud and gay,
Which, ere he spoke, foretold despair;
Thus did she look on such a day,
And such the fashion of her hair;

And thus she stood, when, stooping low,
He took the bramble from her dress,
And thus she laughed and talked, whose "No"
Was sweeter than another's "Yes."

He feeds on thoughts that most deject;
He impiously images her charms,
So reverend in his own respect,
Clasped dreadfully in other's arms;

And turns and puts his brows that ache,
Against the pillow where 'tis cold;
If only now his heart would break!
But, oh, how much a heart can hold!

MINOR PARAGRAPHS.

Mr. Fox, the new Mayor of Philadelphia, is said to be "a sedative in broadcloth and standing collar." No exhortation on his part to a newly wedded couple is at all necessary. With a copy of his photograph and another of the New Testament in their possession, a young couple ought to be abundantly fortified against everything like iniquity or personal disagreement."

Seven persons contend for the Republican nomination to Congress in place of Mr. Pratt, elected Senator from Indiana. The Convention was held on the 11th instant, and the election has been ordered on the 20th.

It is said that on the maps used by the Hindoos Africa is depicted as a small island, and America is made one of its chief towns. No one is obliged to believe the story until he has seen such a map.

An impecunious wretch in Illinois hammered away all night lately upon the corner stone of a church lately laid, and his toil was rewarded by two dollars in small change deposited within. Such cornering operations don't pay much.

Senator Pratt ought to be weighed and to publish an official bulletin of the result. The papers state with extreme exactness but very variously the precise point at which the scales turn the limits being 273 and 346 pounds.

A Western paper states that a young lady was lately buried wearing a large amount of jewelry, including a gold watch. It was found the next day that the coffin had been despoiled of its silver screws, and the corpse of all its adornments.

Servants of favorite actresses in Paris make a good thing by selling the bouquets thrown to their mistresses. The flowers are disposed of to the flower girls on the streets, and some of them undoubtedly do homage to more than one actress.

The *Nation* makes rather a good point, when it says that "the reason why the whiskey ring is so powerful among us is, that they have applied brains to the business of stealing and swindling, and good people have opposed to them nothing but rhetoric."

Pinto, the bold robber of the Park Bank, in New York, was taken to a saloon a day or two since for the purpose of having his photograph taken for the "rogues' gallery." He resolutely refused, giving as an explanation that he was intending to run for Alderman in one of the lower wards of the city—an excuse altogether insufficient, as a place in the rogues' gallery would improve rather than injure his chances.

Advertising is merely making an extension of your shop front in the newspaper. You display your articles in the window where a few hundred see them, and in a newspaper you enumerate what you have for sale and thousands are thereby attracted to your store.

A writer in *Vanity Fair*, London, who has visited this country, says there is wonderfully little slang current in good society here compared with what there is in England, while a good many familiar American phrases are worthy of adoption in the mother country, on account of their convenience and expressiveness.

Here is a chapter of accidents that befell one man in Iowa: He first fell into a well. After he had been drawn up about thirty feet the rope broke and let him down again. A new rope was procured, and he had just begun to ascend a second time, when the windlass rigging gave way and he fell on his head. He is now in the hands of surgeons.

The increase of the rabbits introduced into Australia from England has become so enormous that in some parts of the country they threaten to starve the sheep out of their runs. One farmer estimates that it will cost him £10,000 in wages to trappers and killers before he expels them from his grounds. They are greedy for some of the most beautiful cultivated flowers, and are becoming the terror of horticulturists.

Suckers should be removed from apple trees early in the season, before they have absorbed much of the sap which is necessary to sustain the vigor of the trees. Trees which have been raised from root grafts, or from grafting or budding on suckers, are apt to throw out a number of suckers. Seedling stocks are the best for grafting or budding, as they are generally free from these incumbrances.

A French paper proposes that the Emperor shall be umpire for the settlement of the Alabama question. It says: "We are morally of the opinion of the French Government on that question, and that opinion we know to be favorable to the United States. We are not less certain that a note to Lord Clarendon (an intimate friend of the Emperor,) or to Mr. Gladstone, whose policy on every kind of subject is as much French as it is English, would settle the question in twenty-four hours."

MESSRS. ECKELS, LIGGETT & CO.,

Druggists, Wooster, Ohio, sends the following testimonials regarding the merit of "Peterson's Corn and Bunion Ointment:"

MESSRS. ECKELS, LIGGETT & CO.—I have used Peterson's Corn and Bunion Ointment on a very bad Corn, which it has entirely cured. I sent to the proprietor for several boxes (before you had it for sale) for friends who were also afflicted with Corns, and in every case it gave satisfaction, removing all soreness and pain. I am glad to know you have placed it among your list of reliable remedies for sale.
Yours, C. S. FROST, Wooster, Ohio.

MESSRS. ECKELS, LIGGETT & CO.—Peterson's Corn and Bunion Ointment cures Corns, "you bet." I've tried it. To all Corn afflicted humanity I say, get a box immediately.
Yours truly, M. L. BENHAM, Wooster, Ohio.

GENTLEMEN—I have used Peterson's Ointment and have found it is exactly what it claims to be. It has entirely removed the pain. I do recommend it to those suffering with Corns and Bunions. Yours truly,
HARRY BAUMGARDNER, Wooster, Ohio.

GUINNESS STOUT.
Important Notice.

We hereby call the attention of the public to the fact that our Trade Mark having been largely infringed upon, we have instructed our attorneys, Messrs. EDMONDS & FIELD, New York, to prosecute, to the fullest extent of the law, all parties placing before the public a spurious article purporting to be GUINNESS' EXTRA STOUT.

The SUPREME COURT has perpetually enjoined the use of any imitation of our Trade Mark, and has already granted us injunctions in TWENTY-FOUR Cases against parties discovered counterfeiting our label.

We are, and have been for the last nine years, Messrs. GUINNESS' SOLE AGENTS, and Bottlers for Exportation, of the Extra Stout made by them expressly for the United States, and in order to assist and protect the Trade against imitations of this celebrated, pure and wholesome beverage, we are for the future adopting a PATENT METALLIC CAPSULE, bearing three colors, White, Red and Yellow, with our name and monogram on the top and side, which we recommend the public to observe particularly, as this Capsule is the only future guarantee for getting the genuine article.

We have appointed Mr. S. McCULLAGH, 49 Beaver street, New York, our Representative for the United States, through whom orders are solicited, as also for WM. YOUNGER & CO'S Scotch Ales, and our own Irish Whiskies. [Signed]

WALTHAM WATCHES.

The extensive use of these Watches for the last fifteen years by Railway Conductors, Engineers, and Expressmen, the most exacting of watch wearers, has thoroughly demonstrated the strength, steadiness, durability, and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these time keepers.

The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches combining the best and latest improvements, and at a price which renders competition futile, and those who buy any other watch merely pay from 25 to 50 per cent. more for their watches than is necessary.

For sale by all Dealers.

CAUTION.

The great popularity, on account of salutary medicinal effects of

FINANCE AND TRADE.

SATURDAY EVENING, March 13, 1869.

Money was in fair demand to-day, and the wants of borrowers were partially supplied in many instances. There is a hesitancy among some lenders in taking much of the paper offered on the outside market. It is generally largely of the "accommodation" class and not popular with lenders. In New York during the week the money market has not varied materially. [illegible]

—Government assumed a firm tone and advanced in sympathy with the rise of the London quotations. [illegible]

Jay Cooke & Co., in their letter received by Messrs. Ira B. McVay & Co., notice yesterday's bond market as follows: [illegible]

James T. Brady & Co., corner of Fourth avenue and Wood street, quote United States Securities in New York to-day as follows: [illegible]

—In Railways there was a strong market, as will be seen from quotations below. [illegible]

The following table, made up from dispatches received at J. W. Kennedy's Stock Rooms, Apollo Building, No. 82 Fourth avenue, shows the prices of Railway stocks, Gold, etc., at the various sessions of the New York Boards during the day: [illegible]

A comparison between yesterday's and to-day's closing quotations shows the following changes: [illegible]

—James W. Kennedy, Broker, No. 82 Fourth avenue, (Apollo Building,) dealer in United States Bonds, State and Municipal Securities, Railroad, Bank, Insurance and Miscellaneous Stocks. Being represented in the New York Stock Boards every day while in session, he purchases and sells on commission any stocks on the regular lists on the same terms as the New York brokers. Governments, Gold and Railway Stocks purchased for customers on the usual margin.

THE SOLDIERS' MONUMENT.

Meeting of the Association—Additional Legislation Suggested—A Plan for a Monument—The Site, &c.

An adjourned meeting of the Allegheny County Soldiers' Monumental Association was held on Saturday afternoon, at the rooms of the Young Men's Christian Association, on Fifth avenue. The meeting was called to order at half past two o'clock, Mrs. McKee, President, in the chair, and General A. L. Pearson, Secretary.

The minutes of the previous meeting were read and approved.

THE ACT OF INCORPORATION.

The Committee of Incorporation reported that the bill had passed the Senate and was now before the House. The report was accepted and the committee continued.

SUPPLEMENTARY BILL.

Mrs. Robinson moved that the President be instructed to have a supplementary bill drawn up and forward to Harrisburg, providing that after the monument shall have been erected the same shall be turned over into the custody of the Commissioners of Allegheny county, who shall have the same in keeping, and who shall appropriate a sum sufficient to keep the Monument in repair, and thus perpetuate the memories of the fallen heroes. The motion was adopted and the bill will be forwarded before the original act comes up in the House.

A PLAN OF THE MONUMENT.

The Secretary here read a communication from Joseph S. Kirk, Esq., giving a modified description of a plan of the Monument, as prepared by him. The communication is as follows:

Mrs. McKee, President of the Allegheny County Monumental Association:

By request, I have prepared, and beg leave to submit a modified design for a Soldiers' Monument within reach of the funds of your Association, together with a description of the same.

In designing I have been governed by the following suggestions: As the Monument is to perpetuate the memory of Allegheny County's fallen, an authentic record of such general and local matters that figured prominently in the late conflict should be permanent, that generations to come may be amply enriched by the memory.

History is too general in its character to distinguish any one class of the country's defenders from others, who shared similar trials, endured similar sufferings in vindication of sacred principles. This is left to those communities whose sympathies mingle with theirs; is left with us.

For this reason the names of battles should be conspicuous, as they in time will be confused in the roll-call of victory, without bestowing that share of honor to whom honor is due.

Equally essentially from the constant change in costume, is a correct representation in full uniform of the different branches of the service.

The unparalleled achievement of the Christian and Sanitary Commissions, whose untiring efforts in the cause of humanity and equal justice deserve more than passing notice, and as Freedom triumphed, the Goddess of Liberty is deemed appropriate, and should occupy a prominent position.

DESCRIPTION OF A SHAFT.

Five parallel courses compose a base on which rests an octagonal pedestal supporting a corresponding die, from which center rises a colossal column.

Each alternate side has a semi-octagonal recess, which, with intermediate raised scroll tablets, compose in part the lower portion of the monument.

In the recesses are life sized representatives, in full uniform, of the different branches of the service—infantry, cavalry, artillery and navy. Names of battles occupy the raised tablets, while wreaths and shields, indicative of triumph, are between the statues and the victories.

The cap is formed by a series of semi-circular [illegible]

On each alternate side of the die above, whose general shape is similar to the pedestal, is a plain raised panel, [illegible] as the Association may desire, while the other is a bas relief, embodying subjects of war and national emblems.

The crown corresponds with the caps of the pedestal and die, [illegible] on which is mounted a colossal Goddess of Liberty.

Entire elevation seventy-two feet, with breadth of base twenty-two feet six inches.

By reference to the design it will be seen that great care has been taken to prevent vertical joints or any protection that would impair its durability, and without explanation show its full object.

It is proposed to make the body of the monument granite, statuary marble, as previously selected by your Association.

Respectfully submitted,

JOSEPH S. KIRK.

Pittsburgh, Pa., March 13, 1869.

The design was examined by the members present, nearly all of whom were pleased with it.

COURT PROCEEDINGS.

United States District Court—Judge McCandless.

In the case of the United States vs. George Yates on Saturday on the certificate of the Collector for the Twenty-third District, and on motion of informer's attorney it was ordered that one half of twenty dollars, the fine imposed on defendant, be paid to Henry Herman and the other half to the United States.

In the case of the United States vs. twenty barrels of whisky claimed as the property of F. & B. Stevens, Max Elstein was declared first informer and the Clerk ordered to pay him the sum of [illegible] out of the fund in the registry of the Court, the balance to go to the United States.

Criminal Court—Judges Sterrett and Stowe.

The following business was transacted in this Court on Saturday:

Charles Guilden plead guilty to an assault and battery on Diana Woods, and was sentenced to pay a fine of fifteen dollars and costs.

Leonard Hartman, convicted of a felonious assault and battery on Samuel Auth, was sentenced to pay a fine of ten dollars and costs, and undergo three months' imprisonment in jail.

James Richards, committed to jail by Alderman Thomas on a charge of adultery, was discharged, the committal being defective, inasmuch as it charged Richards with adultery, when he is an unmarried man.

Catharine Hale, charged with forgery, was released on her recognizance for her appearance.

Edward O'Donnell, charged with assault and battery, was released on bail.

Interesting Missionary Services Yesterday—Sermon by the Pastor and Interesting Sabbath School Exercises.

The Missionary anniversary exercises of the Liberty Street M. E. Church, Rev. W. H. Locke Pastor, took place yesterday, and were quite interesting.

In the morning the pastor delivered an excellent sermon, selecting for his text the 16th verse of the 72d Psalm, "There shall be a handful of corn in the earth upon the top of the mountains; the fruit thereof shall shake like Lebanon." [illegible]

TESTIMONIALS

From Gentlemen of High and Social and Political Standing, Who Speak in the Highest Terms of Dr. Aborn's Scientific and Successful Treatment, and Whose Medical and Surgical Rooms are at 134 Smithfield Street, Pittsburgh.

A Gentleman 71 Years of Age Acknowledges the Restoration of His Hearing.

WASHINGTON, D. C., December 23, 1868.

DR. ABORN:

Dear Sir: I wish to acknowledge the remarkable success of your treatment in my case. I had been so deaf for the past twenty years as to be unable to hear, except when addressed in a very high tone. After ten days under your treatment my hearing appears to be perfectly restored. I am seventy-one years of age.

Yours, very truly,

P. NOURSE,
252 F street.

From Hon. James A. Johnson, Member of Congress.

WASHINGTON, D. C., February 20, 1869.

TO WHOM IT MAY CONCERN.

Having been a sufferer from catarrh and a severe bronchial affection for more than seven years, and having found great relief by submitting myself to Dr. E. S. Aborn's treatment for a very few days only, I take pleasure in saying Dr. Aborn, with his new and improved instruments for local application to the lungs, air passages, eyes and ears, should encourage all who are afflicted in those parts to cherish a lively hope that they may find quick and permanent relief.

Very truly,

JAMES A. JOHNSON, M. C., California.

DR. E. S. ABORN.

From Attorney Kyle.

WASHINGTON, D. C., February 22, 1869.

I have been almost entirely deaf in my left ear for eight or nine years, with a constant buzz in the ear, and catarrh in my head and nostrils for two or three years. Not being able to obtain any relief in my case, I applied to Dr. E. S. Aborn, in Washington, D. C., about two months since, and under his treatment I have been restored to my hearing, being now able to hear a watch tick at the distance of ten or twelve feet. The catarrhal affection is being removed rapidly from my head, and my general health is very much improved. I recommend, without hesitation, all persons afflicted with deafness and catarrh to place themselves under the treatment of Dr. E. S. Aborn, and they will obtain a speedy and permanent cure.

H. T. KYLE,
Attorney at Law.

WASHINGTON, D. C., January 13, 1869.

I cheerfully certify that my wife has been for the past two weeks under the treatment of Dr. Aborn and is rapidly regaining her hearing, having been deaf for the past six years, her general health, also, is much improved. She has been treated for deafness by some six eminent physicians in Boston, and her case pronounced incurable. She can now hear ordinary conversation, which she had been deprived of for so long a time. I would state that the treatment of Dr. Aborn is not painful, nor in the least degree unpleasant.

GEO. T. SMALLWOOD,
Business Agent Columbia College,
Washington, D. C.

Card from J. R. Eastman, Esq., Professor of Mathematics at the Observatory, in the City of Washington.

WASHINGTON, D. C., March 1, 1869.

To Whom it May Concern:

I hereby certify that I have been treated by Dr. Aborn for a chronic inflammation of the eyelids, and that I believe a permanent cure has been effected by his method of treatment.

J. R. EASTMAN,
United States Navy.

Testimonial from Rev. John Haines.

WASHINGTON, D. C., January 14, 1869.

To the Public:

I have been painfully afflicted with an ulcerated disease of my throat for about three years, which at times caused me to relinquish all business. Indeed, for two years I have been unable to perform my pastoral duties, owing to the serious condition of my throat. I was providentially advised to apply to Dr. Aborn by one of his patients, which I did about two weeks ago, and within the brief period of two weeks, under his skillful treatment, I can cheerfully state that I consider myself permanently cured. There seemed to be peculiar properties in Dr. Aborn's treatment which acted like magic in my case.

REV. JOHN HAINES.

Successful Treatment of Catarrh.

I have been afflicted with chronic Catarrh so that I could not breathe through my nostrils, and was very nervous and debilitated when I placed myself under Dr. Aborn's care, some three weeks ago. I now can breathe freely through my nostrils, and am feeling like a new being. His treatment has had a most magical effect upon my case.

A. SHARRWALT, Jr.,
Government Printing Office.

JANUARY 12, 1869.

WASHINGTON, D. C., January 12, 1869.

DR. ABORN—Dear Sir: I have been under your treatment between two and three weeks for a disease of the head, throat and chest, which caused me to despair of my life; but I am very grateful to be able to add my testimony in behalf of your successful treatment. I began to improve within twenty-four hours after having placed myself under your care, and have continued to improve from day to day. I am quite relieved of the distress in my chest, and experienced relief in every respect far beyond my anticipations, as I am 69 years of age.

JOHN MOORE,
No. 337 F street.

Discharges from the Ear Cured.

WASHINGTON, D. C., January 9, 1869.

This is to certify that I have been cured of deafness and a discharging from my ear of a very severe nature by Dr. Aborn, within the period of one week. I can cheerfully recommend all to him who are suffering from similar disease.

F. BARTLETT, Pension Office.

Card from Rev. Dr. Grossman.

WASHINGTON, D. C., February 6, 1869.

I have carefully examined the full and complete apparatus of Dr. Aborn, and believe that they are well calculated to reach the disease for which they are intended, and that by means of these and the skill of the Doctor in those diseases which he has made his special study, the afflicted will find relief and certain cure in many chronic and obstinate cases where ordinary means have failed. I can certify to this from my own personal knowledge of cases, and the relief experienced by myself under the Doctor's skillful treatment.

H. C. GROSSMAN,
Associate Pastor with Rev. J. G. Butler, D. D., in charge of Memorial Chapel, Evangelical Lutheran Church, Washington, D. C.

WASHINGTON, D. C., February 22, 1869.

DR. ABORN—Dear Sir,—For twelve years I have not been able to hear anything with my left ear. On the 13th of this month you commenced your treatment; and to-day I feel perfectly cured. Hearing is quite recovered without any painful operation having been performed.

Yours truly,

ALEX. B. MACGOWAN,
First Lieut. Twelfth Infantry.

Testimonial from a Son of Mrs. Joseph Fallansbee.

WASHINGTON, D. C., January 14, 1869.

DR. ABORN—Dear Sir: In justice to you, and the benefit of the afflicted, I wish to add my testimony to the list of those whom you have cured. Fourteen years ago I had the scarlet fever, and have been deaf in my left ear ever since, until I was relieved by you. I placed myself under your care five days ago, and received an improvement by the first operation, and have continued to improve so that I can now hear the ticking of a watch some eight inches from my ear.

CHARLES FALLANSBEE,
H street, between Sixth and Seventh.

[From Rev. Dr. McKee.]

Sight for the Blind and Hearing for the Deaf.

It will be a source of pleasure to many in this city to learn that Dr. Aborn designs to remain among us for some weeks to come. We have seen the medical apparatus of the Doctor for administering local relief to the diseased members of the Eye and Ear, which evince that he has brought the finest and most expensive discoveries of medical science to cooperate with his pathological treatment of his patients. From the Doctor's well earned reputation in this city, he having been successful in curing many most obstinate cases of chronic affection of the Ear and Eye, we trust that those of our fellow citizens who may need his professional services will not hesitate to avail themselves of them.

JOHN M. R. MCKEE,
Pastor of St. Mary's Episcopal Church,
Washington, D. C., February 6, 1869.

Treasury Department.

December 21, 1868.

This is to certify that I have been afflicted with Chronic Catarrh and Sore Throat for twenty years past, and have suffered acutely therefrom for two years. Though not very deaf, I have always heard indistinctly. I have been under the treatment of Dr. Aborn for two weeks, and cheerfully assert that a cure of the Chronic Catarrh and Sore Throat is being rapidly effected, and that I hear much more distinctly than before I was treated.

J. F. JONES,
Third Auditor's Office.

Testimonial from Hon. John Covode, Member of Congress.

WASHINGTON, D. C., June 12, 1868.

For more than a year I suffered inconvenience and deafness from a constant sounding in my left ear. On the 21st day of May I applied for relief to Dr. Aborn. He relieved me at once, and from that day to this I have had no difficulty of any kind with my hearing.

Truly, JOHN COVODE.

Marshal's Office, March 12, 1869.

IF THERE IS ONE DISEASE,

MORE THAN ANOTHER

Requiring the Attention

Of Every One the Moment the First Symptoms of it are Discovered, it is

CATARRH

For by neglecting it, it will bring on DEAFNESS and a host of other maladies, not unfrequently ending in

CONSUMPTION.

In the letter of Rev. Mr. A. H. WATERS, annexed, it will be found that is produced POLYPUS in both nostrils, thus obstructing respiration, and consequently necessitating the air, impure and cold, to be drawn directly into the Lungs, which, sooner or later, would have produced Consumption, but for the timely aid of

DR. LIGHTHILL,

Who successfully removed them. If you have to hawk and scrape in the morning, to clear your throat; if you have discharges, whether hard lumps or soft, yellow matter, whether inodorous or offensive, remember you are affected with Catarrh, which, unless it is removed, will pass beyond the reach of human skill.

Statement of Mr. J. F. Diffenbacher.

PUBLISHER PITTSBURGH RAILROAD GUIDE.

From personal experience, I can most cordially recommend Dr. Lighthill's treatment for the Catarrh as being painless, efficacious, and one which is permanently beneficial in its results.

This statement is made for the benefit of those similarly affected, and not by solicitation of Dr. Lighthill.

J. F. DIFFENBACHER.

Pittsburgh, December 24, 1868.

Further Testimony of Catarrh Cure.

GENTLEMEN—Language is inadequate to express my gratitude "at your unparalleled success" in the treatment of my case. I have suffered with Catarrh for the last ten years, and after having applied to several eminent medical gentlemen, *without experiencing any relief*, was advised to consult you. After being subjected to *two almost painless operations*, you extracted two polypuses, or fleshy tumors, from my nose that have obstructed my breathing for years. I most cordially recommend your treatment to all persons similarly affected. Very truly, &c.,

REV. A. H. WATERS,
Uniontown, Pa., Feb. 10, 1869.

Miraculous Cure of Deafness.

MILLISON CITY, Armstrong Co., Pa.,
January 25, 1869.

Drs. Lighthill & Reid, Pittsburgh, Pa.:

GENTLEMEN:—It affords me extreme pleasure to attest to your almost miraculous skill in the treatment of your several specialties. I have been almost entirely deaf for twenty years, and after having been pronounced incurable by several eminent physicians, was advised to consult you. Upon receiving one application I am entirely relieved, and can hear a whisper distinctly several feet from me. You are at liberty to use this testimonial in any way that, in your opinion, may best subserve your interests and contribute to the relief of afflicted humanity.

COAL AND FARM LAND,
COAL AND FARM LAND,
COAL AND FARM LAND.

Orphans' Court Sale,

On Friday, March 19, at 10 O'clock,

Will be sold on the Premises, a Tract of Land containing 53 ACRES, situated in Wilkins Township, lying on the Pittsburgh and Greensburg Turnpike, one mile east of Wilkinsburg Station, on the Pennsylvania Railroad, and one and one-half miles from the city line, bounded by lands of James Graham's heirs, James Kelly, George Johnston and others. The whole of this tract is improved, is in a high state of cultivation, and is susceptible of the very best improvements. With the exception of three or four acres, the whole extent is underlaid with an excellent vein of Coal. The surface is first-class Farming and Gardening Land. There is a Frame House and Barn erected thereon. The advantageous position of this property should command the special attention of those who look to future developments and improvements.

Terms of Sale—One-fourth Cash; balance in three equal yearly payments.

By order of the Orphans' Court.

HOUSE OF TEN ROOMS,

LOT 93 BY 300 FEET,

IRWIN AVENUE, ALLEGHENY.

On Wednesday, March 17,

AT 2 O'CLOCK,

Will be sold on the premises, the property now occupied by J. Hopkins, situated on the Pasture Lane portion of Irwin avenue, facing the Western terminus of Carroll street. The Ground consists of a magnificent Lot 93 feet front on Irwin avenue, running through to Fremont street 300 feet, laid out in Shade and Fruit Trees, Grape Vines, Shrubbery, &c., and susceptible of the most elaborate improvement. The House is a double two story Frame, containing 10 Apartments, with outside conveniences. The adjacent dwellings are built upon large lots, thus rendering the neighborhood permanently agreeable. The Street Cars run along Fremont street, affording frequent and speedy travel. As a whole this property can be so improved as to make a magnificent Residence, or it may be so divided as to make eligible Sites for eight or more good Dwellings. If not sold entire, will be sold in divisions, viz: Four Lots on Fremont street, each 23 by 150 feet, and the same quantity on Irwin avenue, with Dwelling. For terms and particulars apply to

FINE BUILDING LOT,

36 BY 180 FEET,

On Locust st., Fifth ward, Allegheny,

AT AUCTION.

On Tuesday, March 16, at 2 o'clock,

Will be sold on the premises, that Vacant Building Lot, fronting 36 feet on Locust street, running back toward Ohio avenue 180 feet, adjoining the late residence of Mr. Jonathan Gallagher. There being an alley on one side and in the rear, and a fine street in front, renders this Lot very desirable for the erection of a good Dwelling. The location is good, there being already good buildings in the vicinity and others in contemplation, which will add greatly to the value as a place of residence. Parties in quest of a Vacant Lot will do well to give this sale attention.

EIGHT YEARS' LEASE OF STORE

ON ALLEGHENY DIAMOND,

AT AUCTION.

ON MONDAY, MARCH 15, AT 10 O'CLOCK,

Will be sold on the premises the Lease of property No. 15 Diamond, Allegheny city. The Lot is 18½ feet by 110 feet to an alley. The main building is of brick; the extension is frame. They contain a good Storeroom, with a comfortable Dwelling above. The Ground Rent is $172 a year. Lease extends eight years from April 1. The Buildings belong to the lessee. Possession given April 1. Terms at sale. The location, southwest side of the Diamond, from its close proximity to markets, and being a main thoroughfare, is just the place for the [illegible] prosecution of a live business of almost any kind. Parties designing embarking in business will do well to give this sale their attention.

ORPHANS' COURT SALE.

By virtue of a decree of the Orphan's Court, I will offer at Public Auction, at the Mansion House, on the premises, at 1 o'clock P. M., on THURSDAY, March 18th, 1869, a Valuable Tract of Land belonging to the heirs of William McFarland, deceased, situate near the Panhandle Railway, in Smith Township, adjoining lands of Hon. John Farrar and others, containing NINETY-TWO ACRES, favored with the usual improvements of HOUSE, BARN, STABLES and ORCHARDS. The soil, although limestone—strong and self-sharpening—is yet easy of cultivation, possesses that rare exposure which insures heavy, never-failing crops; contains over Twenty Acres of choice Timber; well watered by never-failing Springs; convenient to Raccoon Station, and within one and one-half miles of Bulger, both Postoffices, at and from which the United States mails arrive and depart daily; and is entirely underlaid with the celebrated PAN HANDLE COAL VEIN, which has obtained such high character in New York and elsewhere for its coke and gas qualities. The Farm would be peculiarly suited to a Grapery, to Dairying and Gardening, and would make a pleasant home for any family. Parties will write to JOHN McFARLAND, Esq., Postmaster, Raccoon Postoffice, or the undersigned, at Candor, Pa.

eod J. MURRAY CLARK.
